overview 2020

What is intuitive channelling and mediumship?

Mediumship training is learning the language of the universe and all the special beings within it and who are waiting and eager to bring you messages! Whether it be loved ones on the other side, angels or spirit guides, you will learn how to tune into them and pass on the profound messages of healing and inspiration they have to give. Channelling is a deeper process of communication that allows you to access higher levels of universal wisdom and pass it on for the benefit of yourself and all those around you.

Who is this course for?

This course is for people that feel that there is more to life than just the physical and want to reach into the spiritual realms to deepen their knowledge and understanding of themselves, spirit communication and the universe as a whole. If you feel like you are missing something in your life that you feel you might find by exploring the spiritual realms, this course is for you. Exploring the unlimited wisdom of the universe will help you to bring through messages that will often bring with it an inner healing and understanding that is the missing piece of the puzzle that you and all those around you have been waiting for.

What makes this course unique?

This course is based on not only opening up and connecting with the universe through your loved ones in spirit or spirit guides, but understanding how you work with your intuition in everyday life. This deep and profound connection will bring you inspiration and healing that will impact all areas of your life including life purpose and relationships.

The inspiration and benefit mediumship and channelling will bring you in all aspects of your life is limitless and something that helps you to tune into your untapped potential.

This course includes a lot of practise and fine tuning of your abilities that will help you to feel confident in your intuition and life in general.

Term 3

Channelling and Connection

This course will start off increasing your channelling skills as we will practise more advanced techniques. It will help you to create a deeper connection with the spirit world and bring through clearer inspirational messages for yourself and others.

Then we will move onto learning one of the most sacred and special spiritual techniques, trance mediumship.

It is when your spirit guides and other beings link their consciousness with a medium's, allowing the spirit guide limited control over the medium's body. This allows the medium to bring through more inspired and powerful messages from the spirit world, directly from the source. This is a sharing of mental and physical energies with a spirit guide, not full possession of the body like in the movies!

The deeper connection with your spirit guides through trance mediumship is one of the most beautiful and special experiences you can ever

have. The amazing messages that come through from spirit world using trance mediumship are truly a blessing for all that hear them.

Pre requisite: This is an advanced channelling course. Enrollment is by short interview with the course facilitator.

The purpose of the practice circles is to delve into the deeper levels of technique. By exploring how you typically sense things, ie visual, auditory etc you will hone and expand into other ways of sensing and experiencing. Attendance at a minimum of 2 Circles are required.

Term 4

Trance Channelling

This course follows on from the Channelling and Connection course, enhancing your skills in trance and delving into trance healing. Trance healing is the amazing process of blending your aura energy with your spirit guide and other universal energies, giving the person you are healing the highest vibration and strongest healing energy possible.

The healing power of trance will be discussed exploring how it can help you to create a deeper connection with the spirit world and even your own aura and body. This is amazingly beneficial for bringing through deep and strong healing energy for yourself as well as all the people you are healing. This sacred and special way of deep healing is amazingly beneficial to learn even if you just want to use it on yourself and your loved ones.

The deeper connection you achieve with your spirit guides and other universal energies through trance healing is one of the most beautiful and special experiences you can ever have, as well as being deeply healing.
